# BRUSH IN FILTER

[HaleyMfg.com](http://HaleyMfg.com)

## How It Works

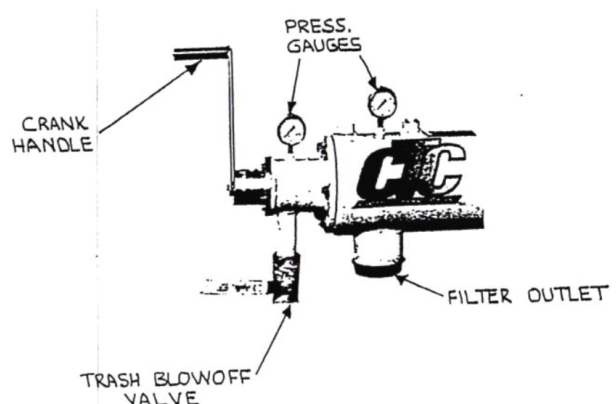

Turn the crank handle clockwise several turns. Open the valve and turn the crank a few more times. Close the valve.

## SPECIFICATIONS

A B.I.F (Brush in Filter) cleaning accessory can be provided for the CTC filter line. This assembly is installed into the filter screen/head. It has multiple brushes along the inside screen length. These brushes are actuated by a hand crank on the outside of the filter head. A flushout/blowoff port adjacent to the hand crank is provided.

Filter Series	Size	Assembly #
B.I.G	3 in.	BA-540
	4 in.	BA-541
	6 in.	BA-542
	8 in.	BA-543
	10 Short	BA-544
	10 Med	BA-545
	10 Long	BA-546
G.N.G	800 GPM	BA-592
	1000 GPM	BA-591
	1200 GPM	BA-590
	1500 GPM	BA-589
T.I.G	3 in.	BA
	4 in.	BA-593
	6 in.	BA
